

ONBOARD CREW MANAGEMENT

JOB TITLE/RANK	Fitter
DEPARTMENT	Deck / Engine (As Applicable)
RESPONSIBLE TO	Second Engineer / Chief Officer – As Applicable

It is recognized that certain nationalities of crews are accustomed to different duties compared to other nationalities (For example officers responsible for the maintenance of safety and lifesaving equipment). Accordingly, the Master has the authority to change the tasks as he sees fit in agreement with the Ship Management Office.

In addition, the Master has the authority to allocate any reasonable task or duties that may be required for the safe and efficient operation of the ship.

MAIN PURPOSE OF THE JOB:

Assisting Engine/Deck Dept as required and when instructed by designated Senior Officers.

KEY TASKS AND RESPONSIBILITIES:

The fitter is responsible to the Second Engineer/Chief Officer for:

- Assisting the engine room watch keepers/UMS duty engineers as required, in particular with regard to the maintenance of the plant
- Maintaining all machinery, technical equipment, plant etc. as instructed and under the supervision and guidance of an Engineer Officer
- Adopting safe working practices
- Undertaking any other duties assigned by the Chief Engineer and/or Second Engineer

PERSONAL BEHAVIOURS & QUALITIES

The job requires:

- Good team working skills
- Ability to perform tasks in an orderly way
- Comfortable understanding and following instructions and willing to ask for clarification if necessary
